

Would you like to lease a Canyon bike? We'll get you started!

1. CHOOSE YOUR BIKE ON THE CANYON WEBSITE

You can compose your bike with the accessories you want on the Canyon website.

Don't want to wait for months for your bike? Canyon has the solution! [On this page](#) you will find an overview of all bikes that are ready for sale.

Note: changing bikes is not possible with leasing. For size selection, please contact CFS Rotselaar or one of the Canyon Service Partners.

2. INTERESTED? GET A QUOTE FOR YOUR FAVOURITE BIKE

Request a quote for your bike with accessories and ART-2 certified lock on the Canyon website. Apart from cycling clothes, shoes, a bike trainer or bike carrier, you can include all types of accessories in the lease contract. In the last step, choose the Cyclis payment method. You will then receive a VAT-free order confirmation in PDF. The bike will be reserved for you for 21 days from this moment.

Send us the order confirmation from Canyon via My.Cyclis (or offerte@cyclis.be). Please note: discounts stated on this do not apply to lease orders. Cyclis will then prepare a lease quote. This quote must then be approved by your employer/manager. Once the lease offer has been approved, we will order your bike from Canyon and you will also receive a confirmation from Canyon itself.

3. LET'S RIDE

As soon as your bike is ready, it will be delivered to your home, your place of work or to one of Canyon's Service Partners (see point 4), depending on your preference.

Note: if you already have a current lease contract, you may not use the new bike until your current contract has expired. This responsibility lies entirely with you.

4. IS YOUR LEASE BIKE IN NEED OF MAINTENANCE?

Canyon has different Service Partners throughout Belgium. You can find them [on the Canyon website](#). Another option is to ask one of the local dealers within our network to service your bike.

Note: you cannot use your maintenance budget to buy additional accessories or spare parts via Canyon's webshop, only to have maintenance carried out. However, you can still buy accessories from a local bike dealer in our network.
