### ATTRACTIVE TERMS

Bike leasing is financially much more advantageous than buying, thanks to tax benefits and instalment payments. You allocate part of your gross salary or mobility budget to a fully equipped bike, including accessories and comprehensive services such as insurance, roadside assistance, and a maintenance budget. Additionally, we are available 24/7 to support you – consider us the *soigneurs* of bike leasing. At the end of the lease period, you can return the bike free of charge or purchase it at its residual value. In either case, you can lease a new bike.

## FLEXIBLE MAINTENANCE BUDGET

This budget allows you to maintain your bike and purchase accessories during the lease period. You decide whether to include a maintenance budget and how much. The minimum for 3 years is €300. If you ride a lot or cover long distances, you can tailor the budget to your needs and increase it in increments of €50 up to one-third of the bike's catalogue value, with a maximum of €1,200.

## HOW DOES THE MAINTENANCE BUDGET WORK?

You can track your budget anytime and anywhere through our online tool [My.Cyclis](#) or the Apple/Google Wallet. My.Cyclis is accessible via our website at [www.cyclis.be](http://www.cyclis.be). Simply show the balance to your bike shop using your smartphone. The bike shop can also check it directly via the online tool for retailers. This payment method is incredibly convenient – no need to take out your wallet! We handle the payment with the bike shop.

## LEFTOVER BUDGET AT THE END OF THE LEASE PERIOD?

You can request a voucher for the remaining budget from your bike shop for later use, so nothing is wasted.

## DAMAGE AND THEFT INSURANCE, INCLUDING REPLACEMENT BIKE

Your leased bike is insured against damage and theft throughout the lease period, with no exemption. This insurance is valid worldwide, even on cycling holidays. We even provide a replacement bike to ensure you remain mobile! Submit the required information via [My.Cyclis](#):

- **In case of theft:** a police report (or theft certificate) and proof of the two keys of the ART-2 lock with visible key numbers.
- **In case of damage:** a repair estimate and photos of the damaged parts.

Once approved by the insurer, the bike can be repaired.
